Hypochlorous
Acid Solution
For Wounds &
The Skin

Contego

Contego Ecodermal Skin Spray is a new high-purity hypochlorous acid-based topical spray for animals. It has fast-acting antibacterial, antifungal, anti-biofilm and antiviral properties making it suitable for use on a wide variety of skin presentations.

Contego Ecodermal Skin Spray is non-toxic and gentle in action. It soothes and calms the skin, aids skin recovery and reduces itch. Contego Ecodermal Skin Spray is suitable for managing wounds and helps encourage wound healing. It does not interfere with the wound healing process. Suitable for animals with sensitive skin.

Contego Ecodermal Skin Spray can be used on all companion animals including dogs, cats, rabbits, guinea pigs, hamsters and other small animals and birds.
